

# WANTED

## Teachers of Home Economics

THE UNIVERSITY OF BRITISH COLUMBIA'S HOME ECONOMICS  
BACHELOR OF EDUCATION PROGRAM

### ★ What is the study of Home Economics?

Home Economics examines the roles of the family, home and community in the lives of individuals. It is an applied field that integrates family studies, food and nutritional sciences, and textile studies.

### ★ What will I do as a Home Economics teacher?

As a Home Economics teacher, you will help students develop practical skills in foods, textiles and care giving. You will foster their critical-thinking and problem-solving skills to manage resources effectively.

### ★ As a Home Economics teacher specialist, what would I be teaching in BC, national, and international schools?

The BC Home Economics curriculum in middle schools (grades 7-9) and secondary schools (grades 8-12) consists of food studies, textile studies, and family studies. Home Economics teachers also teach leadership skills and courses in Health and Career Education, Career Preparation, and Hospitality and Tourism.

Take your UBC BEd degree *anywhere*  
There is a huge need for Home Economics teachers worldwide,  
so this could be you!

**Need more information?** For more information on what you need to be eligible for UBC's BEd program, specializing in teaching Home Economics, check our website!
